## HISTORY OF SPRING HILL NURSERIES

In 1849, Peter Bohlender, a poor, young immigrant from Bavaria with no formal education, stayed home and began growing fruit trees near Dayton, Ohio, while Gold Miners rushed west to California. Although he founded Spring Hill Nurseries with the smallest of beginnings, he soon became recognized as a leader in Horticulture. People found that they could depend upon his plants. These people told their friends and slowly but surely the fame of the nursery spread.

Today, in 1959, we have one of the largest and most modern nurseries in the country with over 500 acres of growing farms and nearly three acres of floor space in our modern greenhouses, packing cellar, sales building, cold storages and office. We produce over one million plants each year which are shipped to every state in the United States.

W. F. Bohlender, son, and H. N. Kyle, son-in-law, assumed active management of the business for thirty-three years. In 1929 Tom Kyle completed his Horticulture schooling at Ohio State University and entered the business as production manager. Tom and Howard Kyle, grandsons of Peter Bohlender, assumed full ownership and management of the business in 1937. Tom Kyle, Jr. completed his Horticulture training at Ohio State in 1954, served with the United States Air Force and is now active in the business. Jim Kyle is now a senior at Ohio State University majoring in Ornamental Horticulture and will be back with us soon. Each generation has had a natural love for plants and all grew up working in the fields.

## TERMS AND CONDITIONS OF SALE

**GUARANTEE AND LIABILITY:** All nursery stock in this list is guaranteed, graded to A. A. N. standards, true to name, clean thrifty plants which are state and federal inspected. Our Ohio Certificate of Inspection accompanies all shipments. All quotations are for immediate acceptance and are subject to being sold. We give no warrants expressed or implied as to description, life, quality, productiveness of any nursery stock, seeds, or bulbs we sell. In no case will we be liable for a greater amount than the original purchase price. All contracts, orders and agreements are subject to adverse crop conditions, restricted transportation, labor shortage, material priorities and other emergencies beyond our control. Therefore, Spring Hill Nurseries cannot be responsible when any of the above conditions limit or make performance impossible. Absolutely no agents or salesmen.

**CLAIMS:** Claims for any cause must be made in writing within five days upon receipt of stock.

**SHIPMENT:** Travel is at the risk and expense of the purchaser. It is best to give specific shipping instructions. Otherwise we use our best judgment in shipping your order. Our responsibility ends upon the delivery of the nursery stock to the carrier. We cooperate to remedy loss between purchasers and carriers.

**PRICES:** Prices quoted in this list are f.o.b. the nursery at Tipp City, Ohio. Boxing and packaging are extra at the cost of the labor and material involved. Prices are based on the current market conditions and are subject to change without notice. They are wholesale prices and intended only for the legitimate trade. This price list cancels all previous lists. 25 or more of a kind at the 100 rate; 250 or more plants at the 1000 rate. For individual selection and field tagging, add 25% to list price.

**TERMS:** Payment terms are thirty days net when credit is established, otherwise cash. All C.O.D. orders require 25% deposit.

**NOTICE:** In the rush of the planting season it is difficult to serve customers on short notice. Therefore, we can give better service when you make an appointment in advance. Wholesale orders are taken at our office on Sundays; however, no wholesale orders dug, assembled, or loaded on Sundays except by previous arrangement.

# FRUIT TREES

## LARGEST GROWER OF FRUIT TREES IN OHIO

We grow quality trees economically because of the tremendous quantities we plant and harvest with our modern specialized nursery power equipment. Our trees are budded or grafted from improved, high-yielding, bright colored, earliest bearing strains. Plant the best—buying Spring Hill's fruit trees is a shrewd purchase. Write for special quantity fruit tree quotations.

# MINIATURE ROSES

Miniature roses have lovely buds, blooms and are like hybrid tea roses except they only grow 10 to 15 inches tall. They are hardy, easy to grow and bloom freely from spring to fall. Miniatures may be grown indoors as house plants and are excellent for borders, beds and rock gardens. The following varieties, grown in 2¼ and 2½ inch pots, are available for shipment with pot balls individually wrapped in aluminum foil.

\* Starred varieties recommended for forcing. 25 or more of a kind at 100 rate, 250 or more of a kind at 1000 rate.

# CHRYSANTHEMUMS

The hardy pot plants we offer are selected from about 500,000 of our field grown chrysanthemums. We select only choice strong rooted, disease free varieties and propagate by stolon and cutting in our 18,000 square feet of modern greenhouse range, using the latest techniques of artificial lighting to control photoperiodism; balanced soil mixtures, effective soil testing and weekly liquid fertilization to provide optimum growth. Soil sterilization coupled with timely spraying provides positive control of weeds, insects and diseases. Through the use of these modern cultural practices we are able to offer America's finest, strong rooted, disease free, vigorous chrysanthemums.

## VARIETIES:

**English**—Large flowering varieties with 6 to 8 inch blooms when disbudded.

**Decorative**—Select Group of the better hardy garden varieties. Easy to grow.

**Button or Pompon**—Small, compact, perfectly formed double blooms clustered on strong stems.

**Spider Fuji**—Long thread-like quilted petals usually with fish-hooked or spoon-like tips.

**Cushion**—Dense, low, round, mound-like plants with a special place in every foundation planting.

**Spoon**—Large blooms with long tubular petals and spoon-like tips.

**Rayonnante**—Long cord-like petals with no spoon or fish-hook tips.

**Greenhouse**—These varieties suited to garden culture—will make extra large florist type blooms if disbudded.
